

Microsoft Project 2007: Level 2

Course Specifications

Course length: 1.0 day(s)

Course Description

Microsoft® Project 2007: Level 2 is the second course in the Microsoft Project 2007 series. In Microsoft® Project 2007: Level 1, you used your project management skills to create a complete project plan. The plans need to be updated and modified regularly to keep the project moving on track. This course will build upon the knowledge gained, and give you the opportunity to work with a project plan once it reaches the project implementation phase.

Course Objective: You will exchange project plan data with other applications, update project plans, create visual reports, and reuse project plan information.

Prerequisites: Students enrolling in this class should have:

An understanding of project management concepts.

Knowledge of a Windows operating system, XP or Vista.

Microsoft Office Project 2007: Level 1.

The following Element K courses would be helpful, but are not required: Project Management Fundamentals, Harvard Manage Mentor Project Management (online course), Project Management Fundamentals Part 1 and 2 (online course).

Knowledge of Microsoft Office 2007 applications would also be helpful.
