

# Visio 2007 Professional: Level 2

## Course Specifications

Course length: 1.0 day(s)

## Course Description

Microsoft® Office Visio® Professional 2007: Level 2 is the second course in the Microsoft Visio 2007 series. In Microsoft® Office Visio® Professional 2007: Level 1, you used the various templates to design and manage workflows and flowcharts. This course will build upon the knowledge gained, and enable you to work with many advanced features, including using the drawing tools, creating and working with custom stencils and templates, and sharing your Visio drawings with other applications.

**Course Objective:** You will create custom elements and a custom template, represent external data as a drawing, and share your work with others.

**Prerequisites:** Students should be familiar with personal computers, mouse, and keyboard (basic typing skills are recommended). They should be comfortable in the Windows environment and be able to use Windows to manage information on their computers. Specifically, they should be able to launch and close programs, navigate to information stored on the computer, and manage files and folders. Apart from these, the user should be familiar with Microsoft® Office Visio® Professional 2007: Level 1. Also, a basic knowledge of Microsoft Word, Excel, and Access would be helpful, but is not required.
